Student Management – Administration Basics

From the Parish Coordinator Panel, click the “View/Update/Assign Lessons to Students” link to visit our new **My Student Management Panel**.

This management panel allows you to view student progress, create new student accounts, assign lessons, or “drop” students (*make inactive*) who are no longer participating in your parish’s programs.
Active students are displayed in rows. Click on the “Details for [Student’s Name]” row heading to open a tab / virtual drawer which contains information about the student, his or her assignments, and the teacher who manages the student.
With the student’s details visible, you may:

- Click on the **See Quiz Results** link (if available) to view grading summaries and the student’s submitted quiz answers.

- Click on the **Drop** button to make the student *Inactive*. This means that the student has either graduated or dropped out, and the procedure moves the student’s record from your ‘active students’ Management Panel to a separate **Inactive Student Management Panel** page.

- Click on the **Update User Record** link to update student profile and account data, such as Name and Grade, Username/Password, Parent Email, and Notes.

- Click on the **Assign Material** link to begin the course assignment process for this student.

We will review a few of these management tasks in greater detail below.

Above images, from top to bottom – New Student Creation Process

My Students” link to navigate back to the Student Management Panel, where the new student will be featured as a row in the active student roster.

**Student Management – Assigning Lessons**

From the Student Management Panel:

- Click on the “Details for [Student’s Name]” row heading to view that student’s profile information, and then click on the “Assign Material” link.

- Choose a Lesson, Series, or Package using the drop-down selection tools. Click on the item to be assigned to highlight it. Note that the available options here are only those products acquired by the Parish. If a student purchases material independently, then your coordinator user account will not have access to manage those assignments.

- Before using the “Submit” button to complete the process, please review the following:

**Disclaimer – Lesson Assignments**

You can only assign courses to students that you have purchased or have been licensed for by CatechismClass.com.

If you need to make assignments of a course to multiple students, you need to have multiple copies in your account. The multiple copies are not shown in your personal account as mentioned above; but only in the drop-down selector while assigning materials. Once you assign a copy to a student, your available courses to assign are reduced by one. For example, if you have four copies of the 5th Grade series, and you assign one to a student, then you still have three available copies to assign to other students.

You can assign any number of courses to a single student however this will take more than one instance of the process.

Students can access their lessons immediately upon being assigned a course by using the Username and Password that you have assigned to them.
YOU CANNOT UNDO A COURSE ASSIGNMENT. Proceed with caution, and contact CatechismClass.com if you make an error in course assignment.
